

LES ATELIERS SAINT JACQUES

MIND & CRAFTS

*Your design
Our expertise*

LES ATELIERS SAINT JACQUES IS A PARIS/NEW YORK BASED FRENCH COMPANY OF HIGH SKILLED CRAFTSMEN

*divided in four workshops:
metal work and wrought iron,
joinery and cabinet making,
stone cutting and marble
work, art foundry and
sculpture restoration.
We work hand in hand
offering architects, interior
designers, designers and
artists solutions.*

It was the "Compagnons du Devoir" who urged the establishment of the master's workshops in order to offer the highest standard of craftsmanship for worldwide creations.

Using their traditional skills, the workshops constantly evolve and inovzate with advanced technologies improving the knowledge of skilled artisans.

Each workshop has its research department, a study group with its own director who, together with a team of master craftsmen, prepares the projects and create works of art using both traditional and modern techniques.

Based in Paris and in New-York, Ateliers Saint Jacques and ASTJ US Inc. provide the best of French savoir-faire for your high end worldwide projects.

Working on a scale from architectural project to delicate furniture, our teams are available to deal with any design.
